- 5.8 The following provisions shall apply should any payment in respect of any invoice for the provision of the services be subject by applicable laws to any withholding tax:

- 11.2 To the extent permitted by applicable laws, documents signed by electronic signature (including signature through DocuSign services or electronically scanned and transmitted versions of handwritten signature) shall be considered as documents in a written form with handwritten signature for all purposes and shall have the same force and effect as if signed by hand.

12. DATA PROTECTION

- 12.1 For the term of the Agreement and the necessary time after its termination, parties may provide each other with personal data within the meaning of GDPR (e.g. identification and contact details of signatories or contact persons; "Personal Data") of the other party or its employees to the extent as may be necessary to conclude and maintain the business relationship between the parties. Each party undertakes to process the Personal Data provided by the other party in a manner that minimizes the risk of loss or misuse of such data and to meet its obligations under the General Data Protection Regulation ("GDPR") and other applicable Personal Data protection laws (GDPR and other Personal Data protection laws as "Data Protection Laws").

- 12.2 Each party declares that its employees and other individuals involved in performance of the Agreement are familiar with the basic information defined in Articles 13 and 14 of the GDPR. The Customer provides to the Supplier its Privacy Policy available at the following link: <https://www.dreherzrt.hu/adatvedelem-gdpr/szabalyzat/>.

- 12.3 If, in connection with the Agreement, the Supplier processes the Personal Data on behalf of the Customer pursuant to Article 28 of the GDPR (other than the processing of the Personal Data needed for conclusion and maintenance of the business relationship with the Customer), the Supplier shall enter into a separate Customers data processing agreement ("DPA"). The Supplier shall notify the Customer about the need to conclude such DPA and undertake all steps necessary for conclusion of the DPA within a reasonable time before it commences with the processing of the Personal Data.

- 12.4 If the Supplier processes the Personal Data as outlined in point 12.3 above but a separate DPA is not concluded between the parties, provisions in points 12.6 and 12.7 below apply.

- 12.5 Each party shall maintain records of all processing operations under its responsibility that contain at least the minimum information required by the Data Protection Laws and shall make such information available on request.

- 12.6 To the extent the Supplier receives from, or processes any Personal Data on behalf of, the Customer, the Supplier shall:

- (a) process such Personal Data: (i) only for the purposes set out in the Agreement or otherwise expressly authorized by the Customer, (ii) only in accordance with Customer's written instructions from time to time (including those set out in the Agreement), and (iii) only for the duration of the Agreement, unless it is otherwise required by applicable law (in which case, unless such law prohibits such notification on important grounds of public interest, the Supplier shall notify the Customer of the relevant legal requirement before processing the Personal Data);
- (b) take reasonable steps to ensure the reliability of all its personnel who have access to such Personal Data, and ensure that any such personnel are committed to binding obligations of confidentiality when processing such Personal Data;
- (c) implement and maintain technical and organizational measures and procedures to ensure an appropriate level of security for such Personal Data, including protecting such Personal Data against the risks of accidental, unlawful or unauthorized destruction, loss, alteration, disclosure, dissemination or access;
- (d) not transfer such Personal Data outside the European Economic Area and the UK without the prior written consent of the Customer;
- (e) inform the Customer within 24 hours if any such Personal Data is (while within the Supplier's or its Supplier's Subcontractors' possession or control) subject to a Personal Data breach (as defined in Article 4 of GDPR) or is lost or destroyed or becomes damaged, corrupted or unusable;
- (f) only appoint a third party (including any Supplier's Subcontractors) to process such Personal Data with the prior written consent of the Customer;

- (g) not disclose any Personal Data to any data subject or to a third party other than at the written request of the Customer or as expressly provided for in the Agreement;
- (h) as the Customer so directs, return or irretrievably delete all Personal Data on termination or expiry of the Agreement, and not make any further use of such Personal Data (except to the extent applicable law requires continued storage of the Personal Data by the Supplier and the Supplier has notified the Customer thereof accordingly);
- (i) provide to the Customer and any Data Protection regulator all information and assistance necessary or desirable to demonstrate or ensure compliance with the obligations in this Clause 12 and/or the Data Protection Laws;
- (j) take such steps as are reasonably required to assist the Customer in ensuring compliance with its obligations under Articles 30 to 36 (inclusive) of GDPR;
- (k) notify the Customer within two (2) business days if it receives a request from a data subject to exercise its rights under the Data Protection Laws in relation to that person's Personal Data and provide the Customer with its full co-operation and assistance in relation to any request made by a data subject under the Data Protection Laws.

12.7 Supplier agrees to disclose to the Customer, in writing, any and all instances where AI is used in the Services provided under this Agreement. This disclosure shall include, but is not limited to: (i) description of the AI functionalities specific to the relevant Service provided; (ii) the intended purpose of the AI.

12.8 In accordance with the EU AI Act, Supplier warrants that any AI used in the Services provided under this Agreement complies with the relevant risk classification and adheres to all applicable provisions of the Act or other applicable AI regulation. Supplier shall disclose the AI risk classification and provide any necessary information to demonstrate compliance upon request by the Customer.

13. ARTIFICIAL INTELLIGENCE

13.1 For the purposes of this clause 13:

"AI System" means a machine-based system designed to operate with varying levels of autonomy and that may exhibit adaptiveness after deployment, and that, for explicit or implicit objectives, infers from the input it receives how to generate outputs such as predictions, content, recommendations, or decisions. For the avoidance of any doubt, AI System refers to both to stand-alone AI solutions and to AI functionalities embedded in otherwise non-AI software products and services.

"AI Input" means any data, prompts, parameters, or other information provided by or on behalf of either party to an AI System during and or in relation to provision of Services.

"AI Output" means any content, code, analysis, prediction, or other results generated by using an AI System during or as a result of the performance of the Services by Supplier.

"Applicable AI Laws" means all laws, regulations and binding regulatory requirements relating to the development, placement on the market, putting into service, deployment or use of AI Systems, including Regulation (EU) 2024/1689 (the "AI Act").

Scope

13.2 This clause 13 applies to the Supplier in either of the following cases:

- (a) the Supplier uses an AI System (including third-party AI systems) in relation to performance of the Services or in relation to creating of any deliverables for Customer (e.g., marketing materials, content, designs, drafts, analyses, source code or reports); or
- (b) the Supplier delivers to the Customer a software solution that contains an AI functionality or feature but is not a stand-alone AI system.

13.3 Where the Supplier delivers or implements a stand-alone AI System (including third-party AI systems) for the Customer, the Asahi Terms and Conditions for AI providers apply instead of this clause 13 (with the exception of Clause 13.1 that shall apply).

13.4 For Suppliers using AI systems classified as high risk according to AI Act, additional rules in Addendum for High-Risk AI Systems apply.

Transparency

13.5 Supplier shall clearly identify to the Customer any and all Services that incorporate, use, enable, or rely upon any AI System, and shall provide the disclosure in writing prior to commencement of

the relevant Services and thereafter upon request and upon any material change. This obligation can be fulfilled by filling the AI-self assessment questionnaire provided by the Customer.

13.6 Should the situation change and the Supplier decides to incorporate, use, enable, or rely upon any AI System during the provision of Services, the Supplier is obliged in advance and in writing to notify the Customer and disclose the following: (i) description of the AI System specific to the relevant Services; (ii) the intended purpose(s) of the AI System; (iii) whether the AI System is classified as high-risk under the AI Act and the basis for that classification; and (iv) identification of Supplier's role(s) in the AI value chain (e.g., provider, deployer, importer, distributor) and, where Supplier is not the provider, identification of the relevant upstream provider(s) to the extent known to Supplier. Supplier shall not engage in any use of AI System during the provision of Services unless such use was notified to Customer.

13.7 If the Customer determines that the Supplier's disclosed use of the AI System poses a risk to the Services, the clause 13.11 will apply.

Regulatory Compliance

13.8 Supplier represents and warrants that it complies with Applicable AI Laws to the extent applicable to Supplier's role(s) and the AI System(s) used in the Services.

13.9 Supplier remains fully responsible for the accuracy, quality and compliance of the Services and Deliverables irrespective of any AI use, and shall ensure AI Outputs are reviewed by qualified personnel prior to delivery.

13.10 Supplier shall not implement or enable any material change to an AI System used during the performance of the Services that reasonably affects (i) the AI System's intended purpose, (ii) its risk classification under the AI Act, or (iii) the Customer's compliance obligations as a deployer, without the Customer's prior written consent.

13.11 Where the Supplier either (i) identifies the AI System used during the performance the Services as a high-risk AI system under the AI Act, or (ii) notifies the Customer pursuant to sections 13.5 – 13.6 and the Customer determines that the Supplier's disclosed use of the AI System poses a risk to the Services then the Customer may suspend, restrict or prohibit the provision of Services where Customer reasonably determines a material compliance risk exists. This clause also applies where the Supplier delivers software solution to Customer that includes an AI functionality or feature qualifying as a high-risk AI System.

Data Sovereignty; Confidentiality; Prohibition on Model Training

13.12 Supplier acknowledges that AI Inputs and AI Outputs may contain the Customer's Confidential Information or Personal Data. Supplier shall process AI Inputs and AI Outputs only as necessary to provide the Services, maintain security, prevent fraud or abuse, comply with law, and perform maintenance or support in accordance with the Agreement. (see clause 9 and clause 12).

13.13 Notwithstanding anything to the contrary in the Agreement, Supplier is prohibited from using Customer's Confidential Information, including the Customer's Confidential Information contained in AI Outputs or AI Inputs, to develop, train, fine-tune or improve any algorithms, machine learning models, large language models or AI Systems, whether for Supplier's internal purposes or for the benefit of any third party, unless the Customer has provided explicit prior written authorisation (which may be granted or withheld in Customer's sole discretion).

13.14 Supplier must ensure that no Customer's Confidential Information (including AI Inputs and/or AI Outputs) is entered into any external or publicly accessible AI System, unless explicitly authorised in writing by Customer.

Intellectual Property in AI Inputs and AI Outputs; Indemnification

13.15 The Customer retains all right, title and interest in and to the AI Inputs to the extent the AI Inputs represent or include Customer's Intellectual Property. Supplier is prohibited from using Customer's Intellectual Property to develop, train, fine-tune or improve any algorithms, machine learning models, large language models or AI Systems, whether for Supplier's internal purposes or for the benefit of any third party, unless the Customer has provided explicit prior written authorisation (which may be granted or withheld at Customer's sole discretion).

13.16 Parties acknowledge that AI Outputs may not be protectable as Intellectual Property under applicable law. Supplier hereby assigns to the Customer all right, title and interest (including all Intellectual Property rights) that Supplier may hold in and to the AI Outputs which form either partially or fully the Services, upon

creation, to the extent applicable law provides for an ownership right in relation to the AI Output (whether an Intellectual Property right or otherwise).

- 13.17 Supplier shall ensure that its use of AI System does not impose any additional licence terms, attribution requirements or use restrictions on Customer's Deliverables/AI Outputs and shall procure all necessary rights from any third-party AI System providers to give Customer the rights set out in this Agreement.
- 13.18 For the avoidance of doubt, nothing in this clause transfers or assigns: (i) Supplier IP or generic business information, software, processes or procedures retained by Supplier under clause 8, or (ii) Third Party IP dealt with under clause 8. Any such Supplier IP or Third-Party IP that is included in or required for use of AI Outputs shall be licensed to the Customer in accordance with clause 8 (as applicable).
- 13.19 To the extent an assignment in clause 13.17 is invalid or unenforceable under applicable law, Supplier grants to the Customer a perpetual, irrevocable, worldwide, royalty-free licence (with the right to sub-license within the Asahi Group) to use, reproduce, modify (also via third party suppliers) and distribute the AI Outputs which form either partially or fully the Services and/or deliverables for the Customer's business purposes, to the extent such licence can be granted under applicable law.
- 13.20 Supplier warrants that AI Outputs and Services created using AI System will not infringe third-party intellectual property rights. This provision shall not apply to circumstances in which the Supplier delivers, operates, utilizes or otherwise employs AI System expressly selected by Customer..
- 13.21 If the Supplier uses any AI system to create any Services and/or deliverables or their part, the Supplier must identify which parts of the Services and/or deliverables are AI-generated.
- 13.22 Where the Supplier reasonably expects to own Intellectual Property rights in the Services and/or deliverables given the nature of the Services and/or deliverables, such as marketing materials, branding, or custom software, the Supplier shall not use AI Systems unless specifically agreed in advance in writing or in the Agreement otherwise
- 13.23 If the Supplier used an AI System when providing the Services and/or deliverables and, as a result, the Services and/or deliverables cannot attract Intellectual Property protection under applicable law, the Supplier shall indemnify the Customer against all resulting losses, claims, damages, and reasonable legal costs, provided that the Customer reasonably expected to own Intellectual Property rights in that Services and/or deliverables given the nature of the Services and/or deliverables, such as marketing materials, branding, or custom software.

Suspension, Remediation and Remedies

- 13.24 If the Customer reasonably determines that either (i) the Supplier's continued use of an AI System during the performance of the Services, or (ii) the Supplier's delivery of a software solution that includes an AI functionality or feature, creates a material compliance risk or materially deviates from the disclosures or limitations in this clause 13, the Customer may suspend the affected Services without penalty. The suspension continues until the Supplier remedies the issue or provides an acceptable workaround.
- 13.25 Any material breach of this clause 13 shall be deemed a breach of the Agreement, and the Customer may exercise its remedies under clause 4 and/or terminate under clause 10, without prejudice to any other rights under the Agreement or applicable law.

14. ETHICAL BUSINESS PRACTICES AND SANCTIONS

- 14.1 The Supplier shall familiarize itself with the Asahi Policies and undertakes to fully abide by them while performing the Agreement. A copy of the Asahi's Supplier Code of Conduct and the Asahi Anti-Bribery Policy for Suppliers are available at <https://www.dreherzrt.hu/dokumentumok/>.
- 14.2 The Supplier hereby represents and warrants that neither the Supplier nor any of the Supplier's Subcontractors or any other contractual partners or any third persons or entities participating in any way on the provision of the Performance, including financial institutions administering any and all payments or other transactions in connection to the provision of the Performance, are a "Sanctioned Person". A "Sanctioned Person" is defined as:

- 14.3 Relating to this Agreement, both Parties shall be in compliance with and will continue to comply with all economic Sanctions Laws administered by OFAC, other U.S. regulatory agencies, the European Union and its Member States, the United Kingdom, and the United Nations ("Sanctions Laws"). The Parties will not involve any Sanctioned Persons in any capacity, directly or indirectly, in any part of this transaction and performance under this transaction. The Parties will not take any action that would cause the other Party to be in violation of the Sanctions Laws.
- 14.4 Notwithstanding any of the above, the Parties will not sell, export, re-export, divert, use, or otherwise transfer any products, services, technology, software, or proprietary information: (i) to or for any Sanctioned Persons or to or involving Sanctioned Jurisdictions; or (ii) for purposes prohibited by any Sanctions Laws. Parties will not source any components, technology, software, or data for utilization in Services: (i) from any Sanctioned Persons or Sanctioned Jurisdictions or (ii) in contravention of any Sanctions.
- 14.5 Supplier's failure to comply with this provision will be deemed a material breach of the Agreement, and Customer will notify the Supplier immediately if it violates, or reasonably believes that it will violate, any terms of this provision. The Supplier agrees that the Customer may take any and all actions required (including but limited to the immediate termination of this Agreement) to ensure full compliance with all Sanctions Laws. Such action may be executed without prior notice or penalty, and the Supplier shall hold the Asahi Group harmless from any consequences arising from the exercise of this right.

15. ASSIGNMENT

- 15.1 The Supplier shall not assign, novate or transfer any rights or obligations under the Agreement without the Customer's prior written consent. No other party than the Supplier shall be entitled to enforce any of the Supplier's rights under the Agreement.

16. FORCE MAJEURE

- 16.1 The "Force Majeure Event" means an extraordinary event arising after the conclusion of the Agreement which is unforeseeable, unavoidable and beyond control of the affected party, including (provided that the prior conditions are satisfied):
- war, explosion, acts or threatened acts of terrorism, riot, civil disorder, rebellion or revolution, embargo on import or export,
 - fire, flood, earthquake or other natural disasters,
 - actions of government that prevent the affected party from performing its obligations.

Any mechanical breakdowns, production delays or strikes on the side of the Supplier or any events affecting Supplier's Subcontractors shall never be considered as the Force Majeure Events in respect of the Supplier's obligations.

- 16.2 Any mechanical breakdowns, production delays or strikes on the side of the Supplier or any events affecting Supplier's Subcontractors shall never be considered as the Force Majeure Events in respect of the Supplier's obligations.
- 16.3 Neither party shall be liable for its failure to duly perform its contractual obligations if the Force Majeure Event causes such non-performance but in each case only if and to the extent that the non-performing party and its subcontractors is without fault in causing the breach or delay, the breach or delay was not caused by a breach of any provision of the Agreement or of applicable laws by the non-performing party and the breach or delay could not have been prevented without unreasonable expense by the non-performing party and cannot be circumvented by the non-performing party at its expense through the use of maximum efforts and best industry practice, including the use of alternate sources, work-around plans and/or other means. In order to be able to benefit from the previous sentence of this Clause 16.2, the party that is prevented from due performance of its obligations by a Force Majeure Event shall inform accordingly the other party in writing not later than within 7 days of the later of (i) when the Force Majeure Event arises and (ii) when the Force Majeure Event stops preventing it from making such a notification, presenting evidence that the Force Majeure Event has a decisive impact on the performance of its contractual obligations. The party affected by a Force Majeure Event shall inform the other party of the Force Majeure Event coming to an end no later than within 7 days thereof. The party prevented from due performance of its obligations by a Force Majeure Event undertakes to exert maximum effort and best industry practice in order to overcome the consequences caused by the Force Majeure Event. Without limitation to the foregoing, the Supplier shall not be released from any of its obligations by a Force Majeure Event which affects the Customer.
- 16.4 If any Force Majeure Event lasts for more than 60 days, the Customer shall be entitled to unilaterally terminate Framework (if concluded) and any and all Individual Agreement with immediate effect.

17. LAW AND JURISDICTION

- 17.3 Supplier must notify the Customer about all claims, issues or disputes ("Dispute") commenced by a third party arising out of or in connection with the Customer's breach of the Agreement without undue delay. Upon Customer's request, Supplier will use its best endeavours to ensure that Customer is involved and has the right to defend both Customer's and Supplier's rights in any such Dispute to the maximum extent possible under applicable law to prevent any (negative) impact on Customer or any other member of Asahi Group.

18. FINAL PROVISIONS

- 18.1 If there is any inconsistency between these Standard Terms and Conditions and other parts of the relevant Agreement, terms in other parts of the relevant Agreement shall prevail.
- 18.2 Nothing in these Standard Terms and Conditions or any Agreement shall be deemed to constitute a partnership between any of the parties nor constitute any party the agent of any other party for any purpose.
- 18.3 The rights of each party under these Standard Terms and Conditions, the Framework or the relevant Individual Agreement may be exercised as often as necessary, are cumulative and not exclusive of rights and remedies provided by applicable law, and may be waived only in writing and specifically. Delay in exercising or non-exercise of any such right is not a waiver of that right. A waiver (whether express or implied) by one of the parties of any of the provisions of these Standard Terms and Conditions, the Framework or the Individual Agreement or of any breach of or default by the other party in performing any of those provisions shall not constitute a continuing waiver and that waiver shall not prevent the waiving party from subsequently enforcing any of the provisions of these Standard Terms and Conditions, the Framework or the Individual Agreement not waived or from acting on any subsequent breach of or default by the other party under

any of the provisions of these Standard Terms and Conditions, the Framework or the Individual Agreement.

- 18.4 The Supplier accepts and undertakes the risk of change in circumstances. For the avoidance of doubt, the Supplier shall not be entitled (by operation of any court or otherwise) to any amendment or termination of the Agreement without the Customer's consent save for as expressly stipulated in the Agreement.
- 18.5 The Supplier shall procure that the Supplier's Subcontractors fully comply with the terms and conditions of the Agreement. The Supplier itself shall be fully responsible and liable for the delivery of the Performance, including for any actions or omissions of the Supplier's Subcontractors and its personnel.
- 18.6 The Customer is not obliged to buy any minimum volumes of the Performance from the Supplier. Any volume forecasts set out in the Agreement are not binding and may be unilaterally changed by the Customer from time to time. The Customer is entitled to source the Performance also from other suppliers than from the Supplier.
- 18.7 If any provision of the Agreement is held to be illegal, invalid or otherwise unenforceable in whole or in part, the other provisions shall remain in full force and effect. The parties shall negotiate in good faith to amend the Agreement in order to be fully valid and enforceable, and, to the greatest extent possible, to achieve the parties' original commercial intentions.
